

# Sensory Room

Our Sensory room is a safe and calm place for children up to the age of 11. The room is equipped to provide either gentle stimulation or relaxation through touch, sound, smell and a range of visual features.

We use a variety of sensory resources to create a new theme every month, ensuring that your child gets varied experiences. The room can be beneficial to all children, especially babies and children with special needs and can be adapted to suit the needs of each individual child.
